

It's easy to get an estimate for your countertops! Complete the form below and send it to us by fax, e-mail or US Mail. Be sure to include the following: Either a hand-drawn diagram (see page 2) or the architect's plan & specifications for your countertops. That's it! You can expect to receive a quote from us by e-mail or fax within a day or two.

 Edge Profile: Simple eased Profiled (beveled, rounded, ogee, etc.) _____

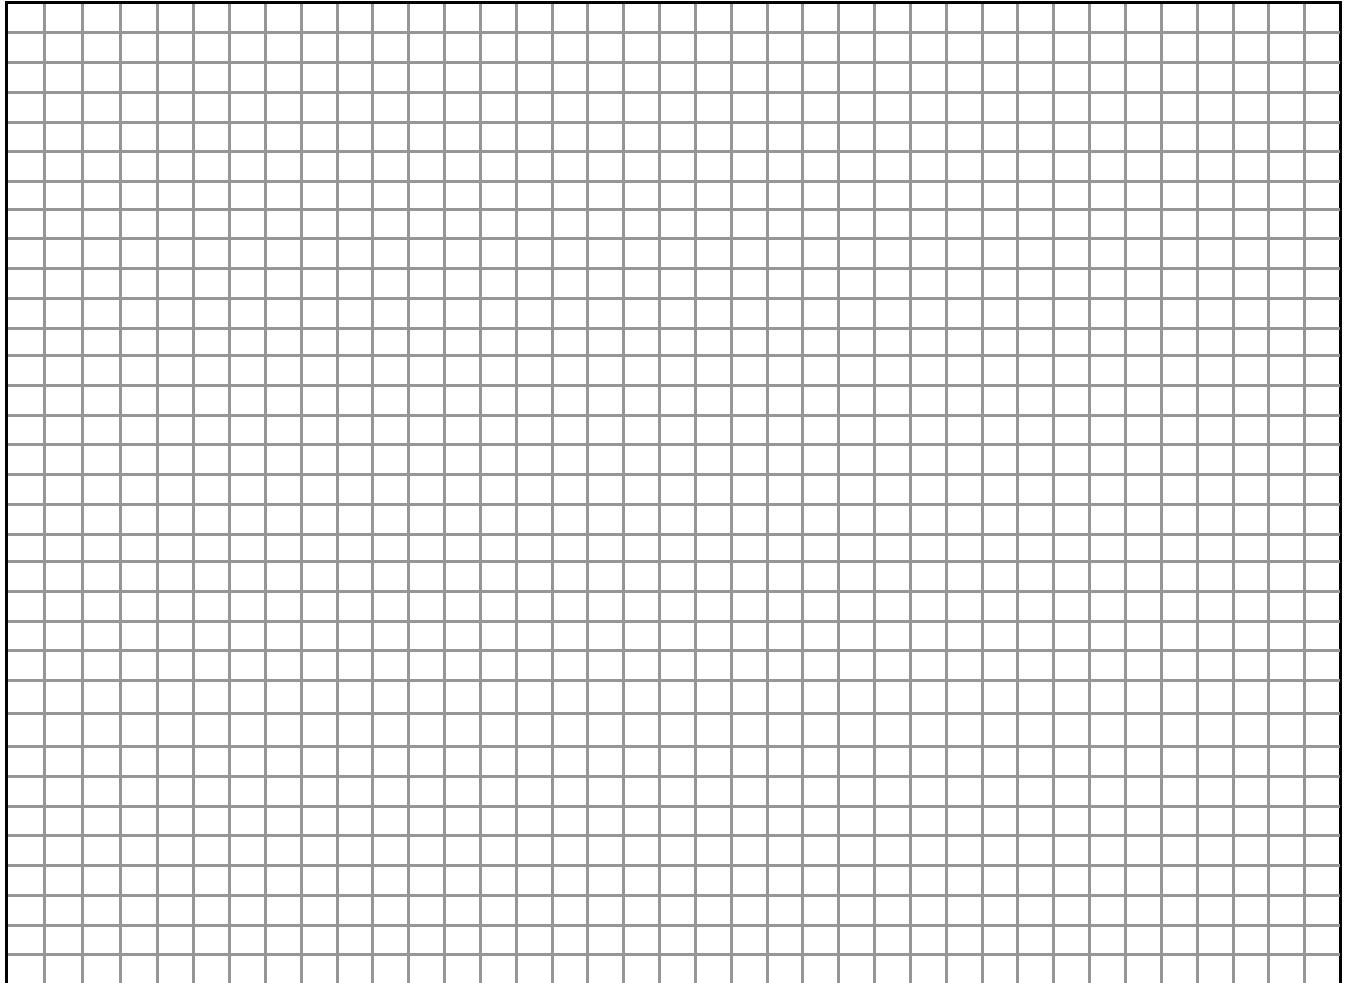

ROOM LAYOUT & COUNTERTOP DIMENSIONS

Name: _____ Phone # _____

I have measured: Existing countertops Permanently installed cabinets without countertops

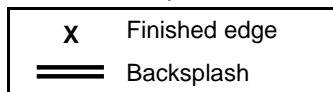

If you don't have a professional plan drawing to send, make a sketch of your room(s) in the space below.

- The graph is provided for your convenience, it doesn't matter if your drawing is not to scale.
- Use the instructions and example as a guide for providing all the information we'll need.
- Include elevation drawings (of your walls) if you are including full-height backsplashes. Include outlets & openings.
- BE SURE ALL DIMENSIONS ARE LABELED:** We cannot scale axes.

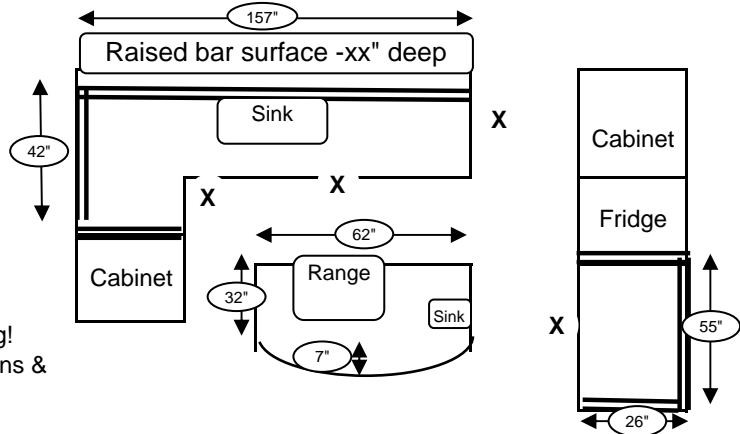

Drawing Instructions

Use these symbols in your drawing and any other notation you think will be useful.

- Show desired overhangs in your drawing.
- Measurements do not need to be precise, they will only be used to make a cost estimate.
- Don't be shy about making notes on your drawing!
We're pretty good at interpreting cryptic notations & we'll call you if we have any questions.

Floorplan Drawing Example

BE SURE TO LABEL ALL RELEVANT DIMENSIONS
